## SUMMARY

Insightful and driven individual currently undergoing MSc in Cyber Security seeking to expand experience by utilizing a robust skillset and diligent work ethic to aid in an employer's growth.

I'm looking for an opportunity in the field of technology, which I can bring a strong computing background and excellent I.T skills.

## EXPERIENCE

### WEB DEVELOPER (6 MONTH INTERNSHIP)

Dec 2015 - May 2016

### MCDONALDS I.T. DEPARTMENT LARNACA

- Responsible for the creation of McDonald's Intranet website using WordPress. Worked alongside the marketing department which assisted with suggested changes.
- Developed a mobile-focused website for the drivers of McDonald's to register their car services online (e.g. refuel, carwash, oil check etc.) via the website instead of manually writing them in the paper card. The technologies used for the front-end were HTML5/CSS3/jQuery Mobile and for the back-end PHP and MySQL.

### WEB DEVELOPER

Sep 2016 - Jan 2017

### SMARTWAYS LARNACA

- Writing code, editing reports, HTML to WordPress conversion, pagination, handling bugs for the Staff Bravo Platform, which was a staff recognition & rewarding system.
- Developed SmartWay's official website using WordPress. A light-weight website which advertises the services that the company provides.

### ASSISTANT TELECOM NETWORK TECHNICIAN

Feb 2018 - Aug 2018

### CYTA LARNACA

- Responsible for installing telecommunication equipment (modems, routers, cytavisions) and wiring jumper cables through the CYTA cabinets all over the city and troubleshooting any problem that may occur. In charge of daily wirinduties and maintenance of the Main Frame Distribution (MDF) houses of CYTA throughout the city of Larnaca.
